It premiered in 1995 at the National Theatre, receiving critical acclaim and numerous awards, including the 1996 Susan Smith Blackburn Prize. The play is set in her native Britain and reflects the social and cultural concerns of the time, particularly around family dynamics, mental health, and the ways individuals confront grief. Stephenson's writing is characterized by its

sharp wit, emotional depth, and keen psychological insight, which are all evident in *The Memory of Water*. The title itself alludes to the idea that memories, like water, can be fluid, elusive, and difficult to hold onto — a metaphor central to the play's narrative. The story revolves around three sisters and their mother, each dealing with their own form of loss and the ways in which their shared history shapes their identities.

Summary of the Play
