Hyphens should be used to separate words in file names, as they are more search-engine-friendly. Avoid unnecessary numbers or symbols that add no context or value to the document's topic.

Title, metadata, and document properties

PDF metadata functions similarly to HTML meta tags. Title, author, subject, and keywords provide additional context to search engines. Setting a clear and relevant document title improves how All The Sinners Bleed Book Club Questions appears in search results and browser tabs.

Many PDFs are published with empty or default metadata, missing an opportunity for optimization. Updating document properties ensures that search engines receive accurate information about the content and purpose of the PDF.

Using structured headings and readable text

Readable text formatting also matters. Proper paragraph spacing, bullet points, and consistent typography make PDFs easier for both readers and

search engines to process.

Internal and external linking in PDFs

Linking PDFs from relevant web pages also improves their discoverability. When PDFs are well-integrated into a website's internal linking structure, search engines are more likely to crawl and rank them effectively.

Avoid keyword stuffing inside PDFs. Overusing terms unnaturally can harm readability and may negatively impact search performance. Instead, keywords should appear naturally within headings and body text.

Image optimization within PDFs
