Introduction to Friedrich Dürrenmatt and His Play *The Visit*

Friedrich Dürrenmatt (1921–1990) was a Swiss playwright and novelist renowned for his philosophical approach to storytelling. His works often delve into ethical dilemmas, societal critique, and the absurdities of human existence. *The Visit* (originally *Der Besuch der alten Dame*) was first performed in 1956 and quickly gained international acclaim. Dürrenmatt's unique style combines dark humor with existential pondering, making *The Visit* a quintessential example of post-war European theatre. It challenges audiences to reflect on morality, justice, and the destructive potential of greed.

Plot Overview of *The Visit*

The play centers around Claire Zachanassian, a wealthy, aging woman returning to her impoverished hometown of Güllen after many years. Her visit is motivated by a desire for justice — or revenge — for a past betrayal. She offers the town a generous sum of money on the condition that they kill Alfred III, a man who betrayed her in her youth. Key plot points include: - Claire's return to Güllen, once a prosperous town but now in decline. - Her proposal to buy the town's moral integrity for financial gain. - The townspeople's moral dilemma as they contemplate accepting Claire's offer. - The gradual erosion of ethical boundaries as greed takes hold. The play culminates in the townspeople's decision to kill III, revealing the corrupting power of money and the ease with which morality can be sacrificed for material gain.

3. The Power of Money

Money is depicted as a corrupting force capable of transforming a community's ethical standards. Claire's wealth becomes a tool that exposes the greed and selfishness lurking beneath societal facades.

4. The Decline of Humanity
