Getting Started with Stock Market Investing

Knowledge is power. Read books, follow reputable financial news sources, and consider taking online courses to understand market fundamentals and investment strategies.

Assess Your Risk Tolerance

Every investment carries risk. Be honest about how much risk you're willing and able to take:

1. High risk: Potential for higher returns but greater volatility.
2. Low risk: Safer investments with steadier returns.

Your risk tolerance influences your asset allocation.

Start with a Budget

Decide how much money you are willing to invest initially and regularly. Never invest money you can't afford to lose.

Choosing the Right Investment Accounts

The type of account you open impacts your taxes and investment options.

Brokerage Accounts

A standard account that allows you to buy and sell stocks, ETFs, and other securities. These accounts are flexible but may have tax implications on gains.

Retirement Accounts

Accounts like IRAs and 401(k)s offer tax advantages for long-term retirement savings.

2. Bonds for stability
3. Cash for liquidity
